

Maintenance Assistant- Food Processing Maintenance

Compensation: **DOE- hourly \$13 - \$18**

Employment type: **full-time**

SUMMARY:

The position, similar to that of a Maintenance Technician / Trainee, requires a mechanically inclined or experienced individual with ability to learn & apply skills needed by our family-owned food processing & freezing operation that also involves orchards & vineyards.

Position includes hands-on preventive, predictive & operational maintenance under leadership of Plant Engineer / Millwright.

Work involves a variety of skills & abilities such as building & machinery maintenance & fabrication, welding, ammonia refrigeration, electricity, electronics, pneumatics, hydraulics, lathe operation, sanitation, plumbing & carpentry.

Successful applicant will be self-motivated, team-oriented, a good problem-solver/trouble-shooter & have references & verifiable work experience.

Flexibility, efficiency, creativity, cost-awareness & safety-consciousness are key elements of the job.

Supplementary training may be available as needed.

Spanish speaking may be helpful.

SKILLS AND ABILITIES:

Ammonia refrigeration (not required)

Building maintenance and carpentry

Electrical & electronics

Gas / diesel / propane engine repair

Equipment fabrication and repair

General mechanics, hydraulics and welding

Lathe operation, plumbing, sanitation.

REQUIREMENTS:

Work experience as an auto, truck or tractor mechanic (or equivalent experience with food processing or mill equipment).

Work with a team and be a self-motivated problem solver

Flexible, efficient, creative

Safety conscious as at all times

Dedication and commitment to work attendance is a must

Valid ODL with good driving record (verifiable with DMV by our insurance)

Must be safety-conscious, self-motivated, dependable, team-player. References and an acceptable driving record are required.
